

Swiss Valley Childminding Nappy changing & toileting Policy

Last reviewed: 23.08.23

Signed: Aimee Eynon & Christine Eynon

Policies & Procedures will be reviewed yearly and amended accordingly

- Parents/carers provide nappies, wipes and creams for their children who are attending the setting.
- Nappies are changed various times throughout the session with children's individual needs and routine in mind.
 - The time between nappy changes will not EXCEED 3 HOURS before checked and changed.
 - Gloves and aprons are worn appropriately when changes are carried out and are changed and disposed of after each nappy change.
 - The nappy changing area is cleaned with anti-bacterial spray after each change.
 - All nappy change is recorded on the changing record sheet displayed in the changing area.
- At the end of each session all children's nappy changes will be recorded and information will be passed on to the parents.

Toilet Training

During times of toilet training, we require that children are sent in with pull-ups on. We will then ask the child in regular intervals if they need the toilet, take and assist them throughout the process. Pull-ups are no longer required when the child is confident enough using the toilet (but we will still expect a few accidents).
